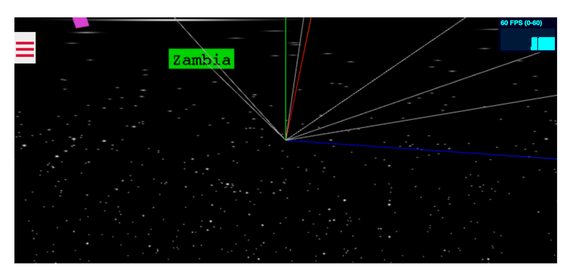
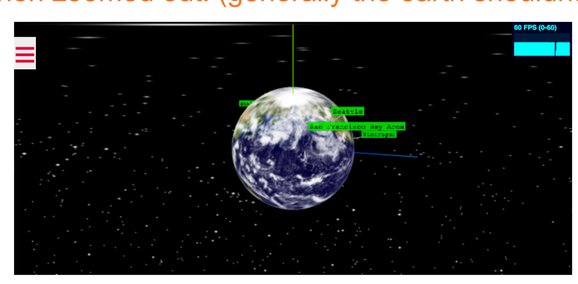
CHANGE ASKS

GLOBE SPIN REFINEMENT:
- Globe spin should only stop if the user drags the globe to spin it or zooms in or out.
- Globe spin should resume after 3 seconds of no user interaction.

ZOOM LEVELS
Maximum zoom in = you should NOT be able to zoom past the surface of the earth (Screen below shows zooming into/past surface)

Driven by sheer passion for global equality through solar we have already been to 5 countries





Minimum zoom out = the earth should appear no smaller than this when zoomed out. (generally the earth shouldnt be too small :)
